BILALWARIS HAYAT SHAIKH

Mumbai, Maharashtra India, 400060 | +917208723700 | techybilal@gmail.com

Web Developer with 2 years of experience building responsive and user-friendly websites using **HTML, CSS, JavaScript, React.js**, and **WordPress**. Delivered 30+ client projects, including business sites, landing pages, and eCommerce stores. Skilled in frontend development, API integration, SEO, and CMS platforms like **Shopify** and **Webflow**. Focused on writing clean code, improving website speed, and creating great user experiences.

EXPERIENCE

Web Developer

Krishna Technologies | Remote
Jan 2023 – Jan 2025

- Developed and maintained responsive websites using HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS.
- Built interactive and optimized frontends using React.js, focusing on user experience and performance.
- Integrated frontend with backend systems using RESTful APIs, with Axios and Fetch API.
- Collaborated on backend functionality using Node.js and Express.js for form handling and server-side features.
- Customized CMS platforms like WordPress, WooCommerce, Shopify, and Webflow for various business needs.
- Implemented SEO best practices, improving site visibility and reducing page load time by 40%.
- Ensured cross-browser and device compatibility with responsive design principles.
- Delivered 30+ client projects, including business websites, landing pages, blogs, and eCommerce stores.
- Followed Agile methodology and used Git, GitHub, Figma, and VS Code for version control and collaboration.

PROJECTS

Dropshipping E-Commerce Store
- Developed and managed a Shopify-based dropshipping website with customized themes and mobileoptimized UI.
- Ran targeted Instagram and Meta ads to drive traffic and generate sales.
- Applied SEO techniques to increase visibility and rank products on search engines.
- Created promotional content using Canva and analyzed performance using Google Analytics.

Web3 Crowdfunding App
- Developed a Web3 Crowdfunding application using React.js, Tailwind CSS, Solidity and Hardhat.
- Integrated smart contracts with the Ethereum blockchain for secure transactions.
- Designed intuitive user interfaces for seamless user experience.

Movix - Movies Database Web App
- Created a Movies Database Web App using React.js and Redux for state management.
- Integrated TMDB API to fetch real-time movie data.
- Implemented search and filtering features to enhance user interaction.
